SUBJECT: Contract No. [REDACTED] Priced Spares Listings

TO: Contracting Officer

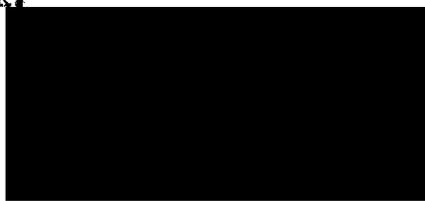

25X1A

The attached letter has been received from [REDACTED]. The cost data requested by him pertains only to those items which are not included in any of the published FAK, Depot Spares, or SLOE listings but which have been assigned Ramo-Wooldridge part numbers. Although they are not a part of the recommended spares, these items must be ordered on a recurring basis by means of purchase requests against Contract No. [REDACTED].

25X1A

As Bill stated in his letter, this cost data will be used as a guide when re-ordering parts and also when computing budget estimates. He has discussed this data requirement with cognizant contractor personnel who have indicated that such information can be compiled. However, any prices which the contractor gives to the depot will not be treated as firm quotes but strictly as estimates.

Because of the number of items for which costs must be prepared and the man-hours necessary to accomplish this task, the contractor has indicated in discussions that he is reluctant to begin any work without suitable contractual coverage. Therefore, it is requested that authorization be issued to the contractor to compile a priced listing of spare parts as defined above and that a firm cost proposal be obtained for this work.
